

How to Export NWEA MAP Data

1. Click **MAP Growth** at the top of the NWEA page.
Click **MAP Growth Reports** in the Other Reports section toward the bottom of the page. (Depending on what products your district has purchased, your screen may look a bit different.)

The screenshot shows the NWEA MAP Growth web application. At the top, the 'nwea' logo is on the left, and 'Help' and 'Modify Preferences' are on the right. Below this is a navigation bar with 'Rostrering', 'MAP Growth', 'MAP Accelerator', and 'MAP Reading Fluency'. The 'MAP Growth' tab is highlighted with an orange box. Below the navigation bar, a paragraph describes MAP Growth as a dynamic adaptive assessment. The main content area is divided into two columns. The left column contains sections for 'Testing' (Manage Test Sessions), 'Resources' (MAP Growth Student Resources, Technical Resources, MAP Growth Support Articles, What's New with MAP Growth?), and 'Operational Reports'. The right column contains 'Popular Reports' (School Profile, Class Profile, Student Profile) and 'Other Reports' (MAP Growth Reports, Reports Queue). The 'MAP Growth Reports' link in the 'Other Reports' section is highlighted with an orange box.

nwea Help Modify Preferences

Rostrering MAP Growth MAP Accelerator MAP Reading Fluency

MAP Growth is a dynamic adaptive assessment that measures your students' achievement and growth in K-12 math, reading, language usage, and science. Use MAP Growth to understand how your K-12 students are performing, track student progress, and inform your instructional strategies.

Testing

Manage Test Sessions
Set up and manage MAP Growth test sessions. Find students to test and administer MAP Growth testing.

Resources

MAP Growth Student Resources
Provide students with resources, such as videos and practice tests, to help them prepare for testing.

Technical Resources
Prepare to test with the MAP Growth Secure Testing Browser, MAP Growth iPad app, Technology Guide, and NWEA System and Bandwidth Requirements.

MAP Growth Support Articles
Search the NWEA Knowledge Base for trending articles and support documentation.

What's New with MAP Growth?
Access the latest information on product updates and more.

Popular Reports

School Profile
Compare school, grade, and class performance to national norms. Includes a new quadrant chart that shows growth and achievement data.

Class Profile
Use this interactive class-level report to gain insight into class performance; identify students who need to take, retake, or complete their test.

Student Profile
Use this report to get a comprehensive view of student achievement and growth, including relative strengths and suggested focus areas.

Other Reports

MAP Growth Reports
Gain insights into your MAP Growth results using a variety of available reports.

Reports Queue
Retrieve PDF and spreadsheet reports that require time to process.

Operational Reports
Monitor testing progress and identify data issues that may affect reports.

2. Select **Schedule a Data Export** from the Data Export Scheduler on the left pane.

Select a report to view or request. Requested reports will appear in the Reports Queue.
Just finished testing? Remember: if you tested today, you can request reports tomorrow.

Showing All Reports

Sort By:

Class Report

- Analyze class needs by instructional area
- View class performance for a term, including norm status rankings

Sample Class Report

Student Profile

- Get a complete picture of a student's growth and performance in one interactive report
- Set goals with students
- Gain insights into what a student is ready to learn

Sample Student Profile Report

Family Report

- Use to inform conference discussions with families
- Print a PDF of the report to send to parents/guardians

3. Select **Enable**.

Frequency: Select One Time. (This will generate the report typically within an hour.)

Select the School term for which you want export data.

If presented with the option, please be sure to include teacher name(s) and grade level in your data export.

Export Type: Select Combined Data File. This will generate a single CSV file to export and submit to us.

Just Right Reader

Data Export Scheduler

- ☐ Disable
☒ Enable

* Required

Frequency *

- ☒ One Time
☐ Daily
☐ Weekly Monday ▼

Term *

Winter 2015-2016 ▼

Export Type *

- | | |
|---|---|
| ☐ Comprehensive Data File | Contents include two CSV files with student info by school and assessment results, and two optional CSV files with student class assignments and student program participation. These files are created per user. |
| ☒ Combined Data File | Contents include student info by school and assessment results combined in a single CSV file. This file is created per user. |

Choose how to aggregate the data:

- **By School:** select schools to include in the data file.
- **By District:** generates one export package including all schools. Do not check any of the optional choices.
- Click the most current norms data. **Don't forget to click Save.**

Contents			
Included	Student info by school	Optional	☐ Student class assignments
	Assessment results		☐ Student program participation
			☐ Student test accommodations
Aggregation	☐ By School	Norms Reference Data	☒ 2020 Norms Data
	☒ By District		☐ 2015 Norms Data
When national norms are not available, test results will be reported with User Norms or not nationally representative.
